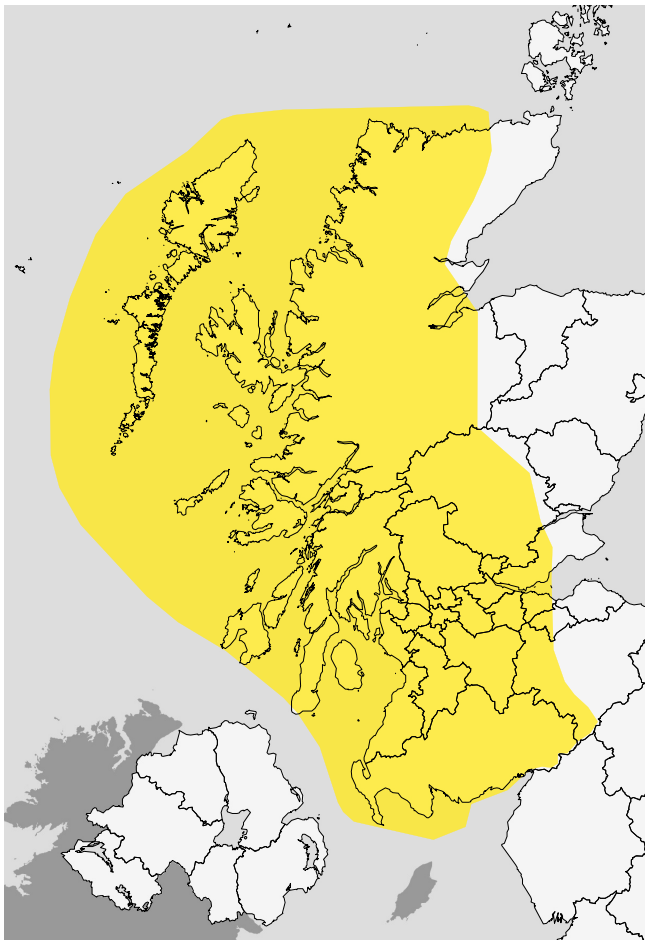
Yellow warning
Thunderstorm

Between
14:00 Sun 12 May 2024 and
03:00 Mon 13 May 2024



Heavy showers and thunderstorms could lead to some disruption in places, especially to travel. Isolated property flooding is possible.

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a small chance of fast flowing or deep floodwater causing danger to life
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some communities become cut off by flooded roads
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Yellow warning
Thunderstorm

Between
14:00 Sun 12 May 2024 and
03:00 Mon 13 May 2024

Further details

Heavy showers, some thundery, are likely to break out over parts of western Scotland during Sunday afternoon. Further spells of heavy rain, with a chance of thunder in places, most likely the south, follows from the south during Sunday evening. Some intense downpours are possible in a few places, giving 20 to 30 mm in less than hour and perhaps 30-50 mm over 2 to 3 hours leading to surface water flooding.

What should I do?

Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter(such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Warning area extended further east and end time brought forward by an hour.

Very low likelihood of medium impacts
